WPS-BLB wrote:

ok so now that i am not sick anymore and many of you have viewed the video of the event i will explain a little about what happened!

first of all though i would like to express how dissapointed i am in the amount of people who came up with lame ass excuses or simply no excuses for not coming! I am especially dissapointed in the people from Ohio!!!! I hope you all had fun doing whatever you were doing because while you all were dickng around we arrived at the meeting location only to find that the Antifa was waiting for us!

we were betrayed by someone within the movement!!! A fake!!! Myself one other man and two 16 year old youngsters stood in the lowes parking lot waiting for the arivial of the few who said they would come to the event!!! about 20 Antifa got out of there cars and moved towards us!!!!

We are not stupid we came to acomplish somethong not get arrested in the lowes parking lot for fighting with the Antifa in front of Lowes security cameras! we got in our car and left before any altercation came of it and contacted the other people coming! they were coming from Illinois!!! drove six hours to get there!

I called them and told them the meeting place was compramisid and we would set a new location, all the while we were playing cat and mouse driving around with the Antifa!

Our comrades entered the Lowes parking lot to turn around and were attacked, there window was smashed out and car kicked!!! more Antifa had arrived and they ran straight into them!!

There were three of our comrades in the car and we lost the Antifa tailing us and they continued to a new location to meet us!!! Unfortunatly the one "Comrade" who was driving from illinois decided he was going to piss his pants and cowardly left back to illinois taking the other two willing Comrades with him!!!!

I contacted over 500 people about this event and in the end Myself another and two 16 year old kids were the only ones to do anything!!!! We made our presence known and did what we came to do despite the efforts of the Antifa to stop us!!

While on the Freeway a Mexican pulled a gun on us and we still continued!!!

Now in the big picture this event ment nothing!! but the point we were trying to make was that its

easy to be active!! grab a flag and stand on the damn freeway!!! to all those people who saw us we became real!!! we were no longer the mythical Skinhead that no one ever sees!!!! imagine if people, even if only one or two people did it, in cities all across america stood on bridges waving flags on the same day!!! what kind of statement would that be!!!! an amazing one!!!!

But unfortunately my faith in the majority of the people in this movement is minimal, and for good reason!!!! i could say let us all pick a bridge in our towns and fly a flag on the same day!!! Would you do it???? Few of you will ever step it up!!! We are losing this battle because the Jew has taken control of our minds and We are unwilling to sacrifice!!!!

I will sacrifice everything and my only hope for all of you is that you will see that you NEED to do more!!!! WE MUST step it up and ACT!!!!

"Not a day without action"

Salute

Hey, I haven't forgotten you. I was busy doing yardwork before the bad weather set in. I may need to go to my sons house this week to help him out for two nights. His wife is in the hospital, and he teaches a class at night, and needs someone to babysit his little girls. So, it looks like it might be next week before I can get in touch with you. Don't worry, the work still needs to be done. I have decided on you and one other person to help out. As I mentioned, I don't know how long this will last, but, we'll play it by ear.

Cole,

Thanks for replying to my ad on Craigslist..What remodeling work did you do in Washington? Do you have any tools of your own? If I like what you respond with, I'll try to get in touch with you on Monday.

Well the last place I worked in Washington was for a Mobile Home Community, I was their Maintenance guy, and frequently they bought mobile homes and remodeled them. I remodeled two entire mobile home bathrooms and much of the house! also I have done other remodel work here and there with my dad and uncle and also did some small jobs for some of my handyman clients!

Most of my tools are for automotive being that i also worked as a mechanic but i do have enough to do basic remodeling with the exception of maybe one or two tools!!!

I am not a half-asser. I work hard and to be honest one of the reasons i quit being a handyman was because i have never been a good businessman, i always felt like i was overcharging people (even though i wasn't) i could never make enough to quite survive because i don't do good taking money for work from nice people and i always did more work than i asked money for!

Anyways I do believe you will be satisfied with my work as well as my character and work ethic!!!

Hope to hear from you soon!

Signed
Cole Mossey

What you doing?

You online?

Hey, you mentioned this guy Scott. You think he would talk to me about Creativity. I was looking to learn more. I downloaded a copy of the White Man's Bible. See if he suggests any thing else to read.

Greetings my Comrades!

Let me first appologize for I have been a little dissorganized as of late due to all the issues we have been going through with the site and what not! Some of you may have recently subscribed to the site www.whitepowerskinheads.com

If you are recieving emails from me for the first time than you will soon catch up and understand

I am still working on raising the money to get the new site hosting and to get the daily video cast up and running!

Donations have been slim but for those of you who have made donations I thank you!

I have some incentive for you guys to send me some money lol! I have a Hand Made (by me) reproduction double sided nazi SS Pennant! It is super nice and if any of you are interested in buying it I am selling it for \$14 no Shipping and handling! everything is sewn!!!

I am attaching pictures of the Pennant!

I hope you take the time to send me an email and let me know you are still out there lol! Ship me some ideas!!!

Heil Brother,

I haven't been in touch much lately, a whole lot of BS life is throwing at me right now. I guess a birth certificate and SS card is not good enough to get a job anymore they are giving me problems finding work over an expired license. Well I guess it doesn't matter if you have a birth certificate or SS # anymore to work, or even a green card at that matter. Hope things are going better for you, and hopefully I'll be back to work next week and after the electric bill, you are at the top of my list for a contribution. I am looking forward to recieving The Network, and hopefully talk to you again soon. Stay strong, white and proud and don't let this ass

backwards world get you down because once they get you there they won't let you back up.

14/88

Chris

Hey I sent you a message on newsaxon but then looking at your older posts saw that you requested that people contact you here. I'd be interested in coming up for the work in September. I have an extra long weekend (labor day plus a vacation day) and a brother I served with in the army lives up that way and I've been promising to come see him forever. You can give me a call at (865) 208-5984.

What's up Cole,

I took care of that banner for you. The one I had made up for you, was just done quick, so you had some sort of banner people could click on. Until I Eric has some time, just stick to the stuff that you already know. I took a look at your site and it looks nice. Sometimes it's better to keep it simply and informational until it can be tweaked, I know you want to put in your videos in, etc;. But, your site is going to be up for a very long time and before you know it, it will have all the bells and whistles, you just have to do it one step at a time is all.

Click here to see what your banner looks like on AF,

<http://aryan-front.com/viewtopic.php?t=5089>

Anyhow, don't let the site burn you out. Because, it can get frustrating when things are not working when you want them to. Trust me, it has happened to me.

In the meantime, take care and give my regards to Jamie.

Greetings Comrade

My name is Cole A. Mossey and Dave directed me to you for the purpose of seeking Hosting! I own 2 Domain names that I would like to have Hosted!

1 www.whitepowerskinheads.com will contain a minimal amount of information. mostly written works concerning Skinheads and Skinhead Ideology.

2 www.nationandrace.com is going to contain a large number of videos! It will have 30 minute videos 5 days a week! A daily video cast if you will! I would also like to archive the videos!

Send me a message and let me know what the cost may be and where we need to start!

Hello Cole,

I charge a flat \$10 a month. I bill one time on the 1st of the year \$120 So if you started in August that would be for 5 months (\$50 per domain) Then on Jan 1st \$120 for 2011 per domain.

This is the Blood & Honour server so its attacked and DOSed more than any WP server on the net. But because of that I have the best security on the net.

Rules are, nothing illegal. Other than that you have full freedom of speech.

I'll email you later this week with more details about the hosting accounts, IE, Cpanel – HD space, Bandwidth etc.. On your video website it would be the \$10 per month like a regular account and if your bandwidth exceeds than we would have to talk about what to do.

This is the Blood & Honour server so its attacked and DOSed more than any WP server on the net. But because of that I have the best security on the net.

Rules are, nothing illegal. Other than that you have full freedom of speech.

I'll email you later this week with more details about the hosting accounts, IE, Cpanel - HD space, Bandwidth etc.. On your video website it would be the \$10 per month like a regular account and if your bandwidth exceeds than we would have to talk about what to do.

let me know what help u need. Once you tell me the domain name , I can make the account and you can start uploading your files.

It takes about 24 hours for the DNS servers to propagate but you might see your new account show up after midnight tonight.

The FTP IP is: bloodandhonour.net

The user name is: wpskin

As soon as the DNS propagates your CPANEL login will be:

FTP your files into the public_html folder. That is the root for your website...

You can upload HTML or PHP or whatever you want.

Your index page (front page) needs to be inside the public_html directory and named index.html

Hey Cole,

I wanted to catch up with you on a few things. I wanted to wait until you got set up. Because, I know putting a web site together can take a little time. I noticed your site has changed. But, for the better. Because, now you don't have to worry about losing it. I knew Bart would come through.

So far so good, I see you need a little help with your html coding in some areas. Sometimes when something shows the actual code, then perhaps, you can simply copy the text (minus the code) and paste it in the areas where you want people to read. I used to have the Aryan Nations portal and I learned that I did not need to have some things coded, I simply copied the text and pasted it and that did not show anything but the text itself. I also used to have music start playing as soon as the web site loaded. It is better to just make it so when a person visits your site to give them the option to listen to music if they want. But, that is up to you

The main thing is you have a fresh slate to work with and you don't have to worry about it being shut down at all. Just make sure you back it up you can upload things and make changes by using something called filezilla <http://filezilla-project.org/> Bart should have given you a username and a password, this way you can use filezilla to work the contents of your site. It takes a little while to figure it out. But, once you do, it will make things much easier. However, it might be

easier to just keep things simple until you learn more about how your site works. So far it looks pretty nice and I'm sure it will get better for years to come.

One thing I stopped getting upset about is people not doing a damn thing for the cause. Sometimes, they find pro-white sites on the web, they see the swastikas and other symbols and they sign up. Meanwhile it is not in their hearts, it is just a fad for them until they find something else to be a part of. Pro-whites like us are spread apart too thinly. There is only a handful of real people out of thousands of members on these type of sites. But, don't let that get you down. Most people are fence sitters and nothing more.

I look at like this, if I can help just one white from becoming niggerized or prevent him from falling under the spell of the jew, then to me all the work I have done is worth it. I'm sure I have mentored more than one person. But, even if it's just one, then you have done something. I have always kept that way of thinking. If I didn't I would get upset people not doing anything.

I still have your number programmed into my phone. Unfortunately, I don't like making my business show business around some people. So, I have not had the time to use the phone. But, I can quietly type away, like I'm doing now.

In the meantime, keep up the good work and if you need any help or pointers, then by all means contact me and I will see what I can do.

Take care for now and give Jamie my regards,

Thanks for everything,

Dave~

Dear Cole and Jamie.

We got your envelope today. You are really super people!!

The card was very nice and a very kind gesture. We will be putting the \$ toward our mattress fund. We have about \$170 so far. My mother's bed is a full size. Being we live in the city. It is hard to find pre-owned mattresses and the goodwill/salvation army does not have any pillow top mattresses, nor do they have any mattresses at all. So, we are going to keep saving until we can get the type she needs. We were thinking of lay away. But, due to the economy, we don't want to risk losing a payment. At least we own our car outright, I was able to pay it off in full about 9 months ago.

Anyhow, Doreen, myself and my mother are very grateful that there good people like yourselves still in the world.

The card was great with everyone signing it and the picture, etc;. We are going to save and treasure the card you made. Homemade/custom cards like the one you sent have more meaning than a store bought card.

I know we will get through these trying times at some point, and when that happens, we want to return the favor to you. As you mentioned, we have to look out for each, and I firmly believe in that.

Again, thank you very much for your help.

Kindest regards,

Dave, Doreen & Beverly.

Greetings,

Some of you may know and some of you may not know that my mother has been suffering from MS for quite awhile. Around December, she got very sick due a bad reaction to steroids to help her walk around better. It backfired and it caused her body to shut down. It has been a very rough and costly situation. In other words we have been in a dire straights situation.

I did not want to put the below link for others to see. Because, this is a very embarrassing situation. Nevertheless, I felt we had no choice but to see if we can get a little help from my fellow friends and members. Anyone that knows me will tell you that I have always gone out of my way to help others. Now, this time I'm the one that needs the help, this way I can make my mother more comfortable. So, take a look on the link below. I know everyone has their own problems and in no way will any judgement will be passed if you are unable to help. Hopefully I can get my mother over this hurdle so we can get back on track.

Hi Cole,

OK, Bart told me that you can contact him via email. He will set you up, he is very easy to work with and he charges \$10 a month for his hosting....that would include anything you need (within reason). As I mentioned before, AF has a huge database and takes a lot of bandwidth and he charges me the same price (\$10 a month). So, you will get the best bang for your buck with Bart, he owns and runs the main B&H site on the link below. You will see, he is serious about his business, his username is C18thug

So, please contact him at this email address, he already knows about your situation and is willing to help, he is also an expert in web hosting and building, etc;. So, he will offer free tech support. He will hook you up before you even make a payment, he said, you can start paying him in August, this way, he can get you up and running without paying, so you can see his work. I think he is pretty fair. I normally pay once a year. But, I'm sure you can work something out with him.

Here is the email address to contact him at,

bart@alsbrook.com

Also, here is the site he owns and runs,

<http://www.bloodandhonour.com/index.html>

Check out the forum he has, it is huge.

I'm sure everything will work out,

Let me know what happens,

Dave~

PS,

This is what he wrote me, this is why I'm writing you now.

You can have him email me. Its \$10 a month. He can start with August..

The

Network

"Not a day without action"

By: Cole A. Mossey

By:

Cole A. Mossey

Welcome to the

Network

The Network consists of White Activists, Nation wide working together in an effort to develop a web of Aryans so cohesive and strong that our Enemies cannot destroy it! The Network believes that regardless of which "Flag you Fly" or which organization you belong to we must unite as individual activists in order to create a giant "Spider Web" of networked people across the lands we are trying to conquer!

The Network holds the Concept of "Leaderless Resistance" to be excellent in principle but a failure in practice! A conglomerate of small hidden independent cells of activists will never win this battle! But neither will building one behemoth Pyramid organization allow us to accomplish our goals! The Taller/bigger the Organization (if it is Pyramid shaped) the harder it will fall and the farther the pieces will scatter when it does!

The common Pyramid shaped organization has its uses and purpose but is vulnerable to many sorts of attacks by our enemies! The Network aims to provide the safety web that will allow these pieces to be caught safely and reorganized!

The Network believes that through a combination of Internet, personal, phone and mail contact (not one but all of theses together) we can weave a Kevlar vest for the Movement! Each thread touching a corner of the Nation!

The Network aims not to hide in our basements and stick to our "Cyber" but rather to unite and actually act! Neither does the Network seek to simply gather preaching to the choir and get drunk! To many Organizations think activism is listening to music getting drunk and hanging out with Comrades! This is fun but it is not the "Activism" we believe in!

We as White Nationalists are viewed as criminals to the world, NOT as a genuine political movement! We must remember this! They will attempt to destroy us no matter the cost! They cannot afford to let us win! Our Enemies will become bolder and try to destroy us without following any sort of legal path! We must be prepared for this eventuality! We must be networked together as a Movement on such a basic Grass Roots level that no matter which one of us they eliminate or remove, the Network will stay intact and be able to repair and reform!

Rationale

The Baseline Principles that drive and unite the Network, beyond any Ideological differences, is the idea that Racial Pride and Racial Preservation are of the utmost importance! Regardless of

weather you hold to Skinhead, National Socialist, Southern Confederate, Christian Identity or any of the other pro-White Ideologies we embrace you! We believe the emphasis must be placed on Racial Unity, Pride, and Preservation not on individual doctrinal variations!

Now the Rationale we hold for this belief in Racial Pride and Preservation is as follows:

For those of you who think Race runs no more than skin deep the fact that scientists can take samples from people weather it is hair, bone, even spit and through Genetic testing they can determine what Race or combination there-of the individual belongs to, should dispel all doubt and cement in your mind the fact that Race does exist and it runs much deeper than just the surface!

Each of the Three Races, Mongoloid (Asian) Caucasoid (White) and Niggroid (Black) have a specific Genetic type that makes them uniquely identifiable via DNA testing! (All other "races" are combinations of two or more of these racial types) If one recognizes that every bit of their physical being is decided by DNA! Genetics! Than they also recognize that without these Genetics, without these Racial Types we would not exist as individuals period!

We owe our existence to Genetics!

We owe our Genetics to our Ancestors!

And we owe our Ancestors to their actions which allowed them to continue generation after generation finalizing their ability to pass their genetics on to us effectively allowing us to exist! Creating us out of them!

To put things in perspective let me explain things differently:

Racial Identity is like a family heirloom, something passed on from one generation to the next! In all reality Race as defined in ones genetics is the greatest heirloom of all! Our Genetics, our Racial Identities extend back in time thousands upon thousands of years! Our Ancestors over Millennia through selectively breeding within our Racial Type have passed something on to us that is older than any family treasure in existence!

We are the Sum of our Ancestors! Their long past lives live on within our veins! We live because they Created us! And we owe everything to that which we are! And we are What our ancestors made us! For us we are White men and women only because of Thousands of Years of Tradition! Thousands of years of Genetic Continuance!

We recognize that Pride=Worth and to take Pride in something is to apply worth to that thing! Well I apply the greatest amount of worth to that which allows me to exist! That which Created me! My Racial Type, my Genetics are the blueprints and I am the product of that Millennia old Archetype! To my Type, to my Race I apply worth manifesting itself in the form of White Pride! And to destroy this Genetic Type by allowing my Race to become extinct is akin to watching my living ancestors and descendents die before my eyes!

I say not "Pray that day may never come!"

But rather "Let us fight, and die if we must, to prevent that day from arriving!"

## Mission Statement

"We must secure the existence of our people and a future for White children"

David Lane, the 14 Words

## Political Ideology

White Nationalism is the basic foundation of all pro-White Ideologies and is therefore compatible with ALL Ideologies within the pro-White Movement!

The basic points of White Nationalism can be defined as thus;

- The Idea that a Sovereign Aryan Nation must be founded and maintained for preservation of the White genetic type, and

- Economic interests of this Nation must be designed for the sole benefit of the People, and the nature of its economy must be based upon production and not consumption.

- Foreign governments, people, and entities must have no hand in the governing, policy

making, and commerce of the Nation.

• The Nation must be free of all non-Aryan Racial types and maintain a strict immigration policy forbidding non-whites into the country based upon the risk of racial integration.

## Political Philosophy

"The Folkish philosophy finds the importance of mankind to be in its basic racial elements. In the state on principle it sees only a means to an end and construes its end as the preservation of the racial elements of man. Thus, it by no means believes in an equality of the races, but along with their difference it recognizes their higher or lesser value and feels itself obligated, through this knowledge, to promote the victory of the better and stronger, and demand the subordination of the inferior and weaker in accordance with the eternal will that dominates this universe. Thus, in principle, it serves the basic aristocratic idea of Nature and believes in the validity of this law down to the last individual. It sees not only the different value of the races, but also the different value of individuals. From the mass it extracts the importance of the individual personality, and thus, in contrast to disorganizing Marxism, it has an organizing effect. It believes in the necessity of an idealization of humanity, in which alone it sees the premise for the existence of humanity. But it cannot grant the right to existence even to an ethical idea if this idea represents a danger for the racial life of the bearers of a higher ethics; for in a bastardized and niggerized world all the concepts of the humanly beautiful and sublime, as well as all ideas of an idealized future of our humanity, would be lost forever."

Adolf Hitler, Mein Kampf

## Principles

### Principles of Aryan Virtue and Excellence

(P.A.V.E)

#### Pride

Have a proper sense of pride in yourself, your family and friends, your race, and everything you do! For Pride is worth, and if you see no worth in these things you are a traitor to all that is righteous!

#### Purity

Be pure in Bloodline! Breed with Whites, live with Whites, mingle with Whites, and love Whites! Our children must carry on our Racial tradition less we become extinct!

#### Primacy

Place the importance of your Race above all else. Your Race is your Master! Obey the Law of nature! It tells us deep within our hearts that the blood that runs through our veins is more than just liquid! It is Ancestry! It is heritage! It is our great connection to our Racial Progenitors!

#### Progress

Always strive to better yourself and those around you. Be ambitious and succeed! Progress is the story history tells and if we wish to make it than in all aspects we must make forward progression!

#### Power

Seek strength in mind body and soul! For these weapons contained within us are greater than any

thing in the arsenal of our enemies! If we make our minds, bodies and souls strong and hone them correctly, nothing can stand in our way!

## Strategy

Since the fall of the Third Reich none of our strategies have succeeded! This simple fact tells us much!

We must ask ourselves what did we not do? Because what we did do didn't work!

Very simply we never have been able to unite as organizations! Recognizing that there is a slim possibility of this happening in the current political spectrum of our Movement, we make the choice to switch from trying to unite Organizations and concentrate on uniting Individuals via the Network! Organizations must exist but an Aryan Network must be established if we wish to make any sort of progress as a Movement! After all movements are movements of People not Organizations!

Beyond accepting that we must create this Network, we recognize that we cannot win as a small group of conspirators nor can we win as a team of guerrillas running through the woods! Killing some bureaucratic shit head will not accomplish what we wish to accomplish either, for ZOG will always be able to replace them! The plain and simple fact of the matter is that we must become a movement of the masses! Whites must agree with us and like what we are doing!

Now this is not to say let us change our goals! We must maintain our goals and not change them just to appease the mainstream! That is compromising our Principles and if we do that we are no better than the Scum we are fighting against!

The question arises how do we captivate and convince the masses?

By hiding behind nice suits and diluted messages we do nothing but convince ourselves that we are somehow avoiding persecution by our enemies and at the same time putting a teaspoon full of sugar with the medicine to make it easier for people to swallow!

Ok I will admit, some people are recruiting into organizations a number of people but they all hide from society! Even their mothers don't know they are White Nationalist! They hide from the accusation "Racist" but in reality our message is Racist, or Racial however you perceive it whatever helps you sleep at night! If we stay true to what we Believe than they will always call us Racists!!!

The point I am trying to make is that if these people are to damn scared to Show the world who they are, hell to show their friends and families! If they hide behind this suit and tie strategy to simply save their own skin than what makes you think they will have the nuts to stand up when the going gets tuff! They have a closet full of guns and say they are ready for revolution but yet they are scared to lose their job! They won't even wear Nationalist clothing because then a Nigger might see! OH GOD RUN IN FEAR! The Network has no room for these Cowards because when the shit does hit the fan they will simply meld back into society!

Now this brings me to my next and main point! How do we "Recruit" society and become acceptable?

The reality is that we as "Racists" are viewed as criminal and evil! So if we are viewed thusly than let us look at what others have done who are viewed as criminal and/or evil to become "acceptable" within their communities!

Criminals (though we are not criminals) take over their communities through presence! They exist in the community so thoroughly and so visibly that they become the accepted norm within that area! A criminal lifestyle becomes the accepted path! They knowingly or unknowingly accomplish this through Community Saturation! This is to say they Saturate the community with their presence to the point that it becomes acceptable even though they are viewed as criminal and/or evil by the mainstream! Shootings in the "Ghetto" go un-noticed! Shootings in nice suburbs are an outrage and unacceptable!

The point is that if we want to make our way of life and style of thinking more widely accepted than we cant hide behind suits! We have to saturate the community with our presence! We are considered criminal and evil! We are not but we must understand the psychology of the situation and realize that we cannot operate like a mainstream political party! We cannot be the "neo-Nazi myth" we must become real in our local communities and this means actual presence!

We must leaflet our communities to death totally saturate them with Propaganda! We ourselves must be billboards of White Pride! No one knows what Thors Hammer or 88 means, so forget "Coded" shirts! Wear bold Nationalist clothing, with shirts saying things like "White Pride" or "White and Damn Proud of it"! No one knows who Skrewdriver is so if the shirt wont evoke a real response from regular people than it does not serve the purpose we want it to!

Every single one of us must, everyday that we are in the eye of the public (with the acceptance of during work) must wear White Pride clothing visible to everyone! Not just a simple lapel pin! We must be bold! All your regular grocery stores and gas stations etcetera, must think of you as the guy who wears the White Pride shirt! We must stick out and be remembered in peoples minds! We must become a normal occurrence in our communities!!!

A day without action is a day wasted! We must be billboards of white pride spewing Propaganda everywhere we go EVERYDAY! Not just once a month when we decide to join a march but all the time!

## Structure

The Structure of the Network is based not on the ability to give orders but rather on the ability of our leaders to lead, organize, and inspire! Our members follow our leaders because they choose to not because they are ordered to!

First let it be known that if any member is found to be a Drug user, Criminal (Not to be confused with a revolutionary), sex offender, bearer of mixed Race offspring, or has ever assisted our enemies against one of our own they will immediately be expelled from the Network!

Visualize the Network as a spider web!

## Overseer

- In the Center Ring of the web is the Overseer, he is in charge of tending to the entirety of the Network and promoting progress and action! It is the Overseers job to maintain personal contact with all Regional Representatives and State Foreman, leading and inspiring them into action and providing the central leadership personality that the Network needs! The Overseer may or may not be a State Foreman but cannot be a Regional Representative.
- The Overseer must maintain a Roster Containing the Names, Phone Numbers, Emails, and Addresses of all Regional Representatives, State Foremen, Lieutenants, and Local Bosses!
- The Overseer cannot be removed except by unanimous State Foreman Vote! This serves to reduce the possibility of power struggles for leadership within the Network!
- If the Overseer is, voted out, dies or is otherwise removed from his position as Overseer the State Foreman will, by majority vote, elect a new Overseer.

## Regional Representative

- The First Ring of the web, surrounding the Overseer, are the Regional Representatives. These representatives are State Foreman appointed by the Overseer to represent a specific regional area as defined by the Overseer. It is their job to maintain personal contact with all State Foreman within there designated region as well as maintaining contact with all Regional Representatives. Acting as leaders and organizers!
- There can be no less than three Regional Representatives at any time! Each Regional Representative must have at least three State Foreman, other than himself, in his appointed region! Therefore before any Regional Representatives can be appointed a total minimum of at least

Twelve State Foreman must be active! If twelve Foreman do not exist than the position of Regional Representative is to be left empty and bypassed.

- It is the responsibility of all Regional Representatives to maintain Rosters containing the Names, Phone Numbers, Emails, and Addresses of all members in their Regions as provided by State Foreman.

#### State Foreman

- The Second Ring of the web consists of the State Foreman. The Foreman are the rulers of their kingdoms so to speak, and are also appointed by the Overseer. It is the responsibility of each Forman to make and maintain personal contact with all other State Foreman. If the Forman has been appointed as Regional Representative than he will carry those responsibilities, in addition to his duties as State Foreman.

- State foreman will keep in direct contact with all Network Members within their State. State Foreman will, upon reaching a total State Membership of 10 or more appoint an official Lieutenant! If membership increased beyond the point of reasonable control for the State Foreman and his Lieutenant by virtue of membership reaching thirty or more, or members being divided within the State by such a distance that it makes sense to establish State sub-Divisions than the State Foreman may appoint a Local Boss to carry out leadership duties as a commissioned (i.e. "Loaned" authority) member in a designated Zone!

- It is the State Foreman's duty to remove Members from the Network within his State that fail to live up to Network Standards! Fake and Lazy people will quickly be rooted out!

- It is the Responsibility of State Foreman to maintain a Roster containing the Names, Phone Numbers, Emails, and Addresses of all members within their State!

#### Lieutenant

- The Third Ring of the web consists of the Lieutenants. They are appointed by State Foreman as needed according State Membership as Described in the State Foreman Section.

- It is the Responsibility of the Lieutenants to develop the attributes and know how to replace temporarily or permanently the State Foreman should he become disposed! Lieutenants should Reinforce the State Forman and provide council and assistance when necessary!

- Lieutenants must maintain copies of the State Rosters and engage in personal contact with State Members and Regional Representatives!

#### Local Boss

- The Fourth Ring of the web consists of the Local Bosses! The Local Bosses are appointed by the State Foreman in order to assist with local level leadership and motivation in the Network!

- Their Position is Unofficial and any authority they wield is by commission only and is temporary! Often a local Boss may only be active during special Network events! The activity level of the Local Boss is to be determined by the State Foreman.

#### Member

- The Fifth Ring of the web consists of the Networks Members!
- Every Member Must be a Racial Activist DAILY! There is no room for lazy people within the Network! At every moment possible, at every opportunity Network Members must take advantage of the situation and work towards the Preservation of our kind!
- This means putting forth time, money, effort, sweat, and blood! The Network will consist of nothing less than Duty driven, Whites willing to sacrifice for their Race at every turn! To give their own life, to give their children's lives if it means the Survival of the White Race!

Some may think that this is a pyramid Organization but I assure you it is not! The power of the Network does not come from the top down but rather From the Center out and from the ends in back to the Center! The Key is that people within the Network act because they want to not because they are told to and that all Rings of the web are intertwined with one another!

#### Joining

Dues are not required! But Donations, when able, are expected!

Only State Foreman and the Overseer can accept and approve applications for membership! State Foreman can only approve within their own State. If the applicant is in a State where no foreman exists than it is the reasonability of the Overseer to make judgment on the application.

Prospective members must provide their Name, Address, Phone Number, and engage in phone and/or actual conversation with the State Foreman or Overseer to be eligible for membership!

Based on the Individuals character and activities, evaluated after an indeterminate time period, the State Foreman or Overseer will choose to either accept or deny the person!

All Members can also be members of outside organizations! "Orders" are not given, all things are voluntary and based on leadership and the memberships desire to follow those leaders!

We are here for Networking and Activism! If members are Inactive they will simply be removed from the Network! If one day they wake up and choose to become Active they will be welcomed back into the Network! We base everything on ones actions, They speak much louder than words!

We seek to end the stagnation that our Movement seems to be plagued with! We do not claim to be the Elite of the Elite, only that we are all active and ready to do what we must to Win this Sacred Battle!

"Not a day without action"

Salute

Overseer

Organizations must exist but an Aryan Network must be

established if we wish to make any sort of progress as a Movement! After all movements are movements of People not Organizations!

Beyond accepting that we must create this Network, we recognize that we cannot win as a small group of conspirators nor can we win as a team of guerrillas running through the woods! Killing some bureaucratic shit head will not accomplish what we wish to accomplish either, for ZOG will always be able to replace them! The plain and simple fact of the matter is that we must become a movement of the masses! Whites must agree with us and like what we are doing!

Now this is not to say let us change our goals! We must maintain our goals and not change them just to appease the mainstream! That is compromising our Principles and if we do that we are no better than the Scum we are fighting against!

The question arises how do we captivate and convince the masses?

By hiding behind nice suits and diluted messages we do nothing but convince ourselves that we are somehow avoiding persecution by our enemies and at the same time putting a teaspoon full of sugar with the medicine to make it easier for people to swallow!

Ok I will admit, some people are recruiting into organizations a number of people but they all hide from society! Even their mothers don't know they are White Nationalist! They hide from the accusation "Racist" but in reality our message is Racist, or Racial however you perceive it whatever helps you sleep at night! If we stay true to what we Believe than they will always call us Racists!!!

The point I am trying to make is that if these people are to damn scared to Show the world who they are, hell to show their friends and families! If they hide behind this suit and tie strategy to simply save their own skin than what makes you think they will have the nuts to stand up when the going gets tuff! They have a closet full of guns and say they are ready for revolution but yet they are scared to lose their job! They won't even wear Nationalist clothing because then a Nigger might see! OH GOD RUN IN FEAR! The Network has no room for these Cowards because when the shit does hit the fan they will simply meld back into society!

Now this brings me to my next and main point! How do we "Recruit" society and become acceptable?

The reality is that we as "Racists" are viewed as criminal and evil! So if we are viewed thusly than let us look at what others have done who are viewed as criminal and/or evil to become "acceptable" within their communities!

Criminals (though we are not criminals) take over their communities through presence! They exist in the community so thoroughly and so visibly that they become the accepted norm within that area! A criminal lifestyle becomes the accepted path! They knowingly or unknowingly accomplish this through Community Saturation! This is to say they Saturate

the community with their presence to the point that it becomes acceptable even though they are viewed as criminal and/or evil by the mainstream! Shootings in the "Ghetto" go un-noticed! Shootings in nice suburbs are an outrage and unacceptable!

The point is that if we want to make our way of life and style of thinking more widely accepted than we cant hide behind suits! We have to saturate the community with our presence! We are considered criminal and evil! We are not but we must understand the psychology of the situation and realize that we cannot operate like a mainstream political party! We cannot be the "neo-Nazi myth" we must become real in our local communities and this means actual presence!

We must leaflet our communities to death totally saturate them with Propaganda! We ourselves must be billboards of White Pride! No one knows what Thors Hammer or 88 means, so forget "Coded" shirts! Wear bold Nationalist clothing, with shirts saying things like "White Pride" or "White and Damn Proud of it"! No one knows who Skrewdriver is so if the shirt wont evoke a real response from regular people than it does not serve the purpose we want it to!

Every single one of us must, everyday that we are in the eye of the public (with the acceptance of during work) must wear White Pride clothing visible to everyone! Not just a simple lapel pin! We must be bold! All your regular grocery stores and gas stations etcetera, must think of you as the guy who wears the White Pride shirt! We must stick out and be remembered in peoples minds! We must become a normal occurrence in our communities!!!

A day without action is a day wasted! We must be billboards of white pride spewing Propaganda everywhere we go \*EVERYDAY\*! Not just once a month when we decide to join a march but all the time!

\*Structure\*

\* \*

\* \*

The Structure of the Network is based not on the ability to give orders but rather on the ability of our leaders to lead, organize, and inspire! Our members follow our leaders because they choose to not because they are ordered to!

First let it be known that if any member is found to be a Drug

user, Criminal (Not to be confused with a revolutionary), sex offender, bearer of mixed Race offspring, or has ever assisted our enemies against one of our own they will immediately be expelled from the Network!

Visualize the Network as a spider web!

#### \*Overseer\*

- In the Center Ring of the web is the Overseer, he is in charge of tending to the entirety of the Network and promoting progress and action! It is the Overseers job to maintain personal contact with all Regional Representatives and State Foreman, leading and inspiring them into action and providing the central leadership personality that the Network needs! The Overseer may or may not be a State Foreman but cannot be a Regional Representative.
- The Overseer must maintain a Roster Containing the Names, Phone Numbers, Emails, and Addresses of all Regional Representatives, State Foremen, Lieutenants, and Local Bosses!
- The Overseer cannot be removed except by unanimous State Foreman Vote! This serves to reduce the possibility of power struggles for leadership within the Network!
- If the Overseer is, voted out, dies or is otherwise removed from his position as Overseer the State Foreman will, by majority vote, elect a new Overseer.

#### \*Regional Representative\*

- The First Ring of the web, surrounding the Overseer, are the Regional Representatives. These representatives are State Foreman appointed by the Overseer to represent a specific regional area as defined by the Overseer. It is their job to maintain personal contact with all State Foreman within there designated region as well as maintaining contact with all Regional Representatives. Acting as leaders and organizers!
- There can be no less than three Regional Representatives at any time! Each Regional Representative must have at least three State Foreman, other than himself, in his appointed region! Therefore before any Regional Representatives can be appointed a total minimum of at least Twelve State Foreman must be active! If twelve Foreman do not exist than the position of Regional Representative is to be left empty and bypassed.
- It is the responsibility of all Regional Representatives to maintain Rosters containing the Names, Phone Numbers, Emails, and Addresses of all members in their Regions as provided by State Foreman.

#### \*State Foreman\*

- The Second Ring of the web consists of the State Foreman. The Foreman are the rulers of their kingdoms so to speak, and are also appointed by the Overseer. It is the responsibility of each Forman to make and maintain personal contact with all other State Foreman. If the Forman has been appointed as Regional Representative than he will carry those

responsibilities, in addition to his duties as State Foreman.

- State foreman will keep in direct contact with all Network Members within their State. State Foreman will, upon reaching a total State Membership of 10 or more appoint an official Lieutenant! If membership increased beyond the point of reasonable control for the State Foreman and his Lieutenant by virtue of membership reaching thirty or more, or members being divided within the State by such a distance that it makes sense to establish State sub-Divisions than the State Foreman may appoint a Local Boss to carry out leadership duties as a commissioned (i.e. "Loaned" authority) member in a designated Zone!

- It is the State Foreman's duty to remove Members from the Network within his State that fail to live up to Network Standards! Fake and Lazy people will quickly be rooted out!

- It is the Responsibility of State Foreman to maintain a Roster containing the Names, Phone Numbers, Emails, and Addresses of all members within their State!

\* \*

#### \*Lieutenant\*

- The Third Ring of the web consists of the Lieutenants. They are appointed by State Foreman as needed according State Membership as Described in the State Foreman Section.

- It is the Responsibility of the Lieutenants to develop the attributes and know how to replace temporarily or permanently the State Foreman should he become disposed! Lieutenants should Reinforce the State Forman and provide council and assistance when necessary!

- Lieutenants must maintain copies of the State Rosters and engage in personal contact with State Members and Regional Representatives!

#### \*Local Boss\*

- The Fourth Ring of the web consists of the Local Bosses! The Local Bosses are appointed by the State Foreman in order to assist with local level leadership and motivation in the Network!

- Their Position is Unofficial and any authority they wield is by commission only and is temporary! Often a local Boss may only be active during special Network events! The activity level of the Local Boss is to be determined by the State Foreman.

\* \*

\* \*

#### \*Member\*

- The Fifth Ring of the web consists of the Networks Members!

- Every Member Must be a Racial Activist DAILY! There is no room for lazy people within the Network! At every moment possible, at every opportunity Network Members must take advantage of the situation and work towards the Preservation of our kind!

- This means putting forth time, money, effort, sweat, and blood!

The Network will consist of nothing less than Duty driven, Whites willing to sacrifice for their Race at every turn! To give their own life, to give their children's lives if it means the Survival of the White Race!

Some may think that this is a pyramid Organization but I assure you it is not! The power of the Network does not come from the top down but rather From the Center out and from the ends in back to the Center! The Key is that people within the Network act because they want to not because they are told to and that all Rings of the web are intertwined with one another!

\*Joining\*

\* \*

\* \*

Dues are not required! But Donations, when able, are expected!

Only State Foreman and the Overseer can accept and approve applications for membership! State Foreman can only approve within their own State. If the applicant is in a State where no foreman exists than it is the reasonability of the Overseer to make judgment on the application.

Prospective members must provide their Name, Address, Phone Number, and engage in phone and/or actual conversation with the State Foreman or Overseer to be eligible for membership!

Based on the Individuals character and activities, evaluated after an indeterminate time period, the State Foreman or Overseer will choose to either accept or deny the person!

All Members can also be members of outside organizations! "Orders" are not given, all things are voluntary and based on leadership and the memberships desire to follow those leaders!

We are here for Networking and Activism! If members are Inactive they will simply be removed from the Network! If one day they wake up and choose to become Active they will be welcomed back into the Network! We base everything on ones actions, They speak much louder than words!

We seek to end the stagnation that our Movement seems to be plagued with! We

do not claim to be the Elite of the Elite, only that we are all active and ready to do what we must to Win this Sacred Battle!

\*"Not a day without action"\*

Hey Cole,

I have been having a pretty bad week or so. When bad luck comes, it hits hard sometimes. The heat is killing me, it was 105 degrees and very humid yesterday and today is very miserable. My mom is suffering as well, we all are. Even with the A/C, it is rough. I had to have my car towed to NJ to have it re-repaired, there was something wrong with the map system, causing the car to stall every time I took my foot off the gas and it is unsafe when it does that, because, I can't control the car and I drive in NYC. They "fixed" it once and did not do it right. So, it was under warranty (their work) and had to have it towed on a flatbed and it was HOT!. Being I drive a an Cadillac Deville, the parts cost more than the average car. Then my monitor blew out, these wide screen monitors are nice. But, they don't last forever, they have about a 50,000 hour life and that's it. So, I found a good deal on a 27 inch LG monitor/TV. So, I'm looking foreword to getting that. I have a back up monitor (the old ones with the big chassis). I'm just not looking foreword to paying the credit card bill. But, what can I do, there are some things that are need to be replaced when they break, car, computer, etc;. So, tending to my mother and dealing with so many other things is taking it's toll on me. But, we will survive.

I wrote Bart about the hosting, I did not write him until I got the heads up from you. I blind CCed you the email I sent him.

So, we will see what happens.

In the meantime, take care brother.

Hi Bart,

I hope all is well and the heat is not killing you. It is hot and humid as hell here in NY.

Anyhow, the reason I'm contacting you is there is a solid dude that has a web site and he does not have it hosted through a non free speech host and they are going to shut him down very soon for TOS violations.

I told him that you might be able to help him, it seems his site does not take up much bandwidth and he is a Blood & Honour supporter, he even has a link/banner to a B&H site.

I told him I would contact you, he has raised money or is raising money to pay for any service you can provide to him,

This is a link to his website

<http://www.whitepowerskinheads.com/>

This brother has a lot to offer, he is young. But, very outspoken on his beliefs. So, if you can help him out, that would really be super.

Regards,

Dave~

Comrades

i recently asked all of you how many people would be interested in recieving my new booklet "The Network" via in the mail! Few responded but those who did I have spoken to via the phone and am encouraged by their enthuasiam for what we are doing! I will be attaching a file containing "the Network" Most of all this was a test to see how many people would take our contact beyond simply the internet!

If you have problems opening the file contact me and i will make sure you get it one way or another!

You are the first to receive "the Network" it will be obvious to you that this work is more of a manifest or field manual than anything else! You will be the first to read and hopefully the first to join the Network!

I am but one man and you are but single men, alone we stand little chance, but together we can create a Network so strong and revolutionary that victory will become an achievable goal!

This is me asking you one Comrade to another to join me! If you feel I am moving in the right direction don't stand and watch get up and help me push this broke down car to the gas station!!!

Ok cool so the address isn't gonna change, that's good. As far as the socializing it can be a good thing, comradery leads to unity leads to action for victory. I would like to help in any way I can, just lemmie know. Unfortunately I'm really poor or I'd be doing much more for our cause. I couldn't figure out how to sign in or see any of the mates I met on there, I will stay loyal to ur own personal fight as long as I'm able to, just keep me updated n lemmie know anything you need of me. I have a good impression of you n believe ur one of the few true blue, so get @ me whenever, n good luck with the rebuilding the site. I made a few good mates offa there n really liked the site as it was but if you found probs w/ it I'm sure they were there. NO SURRENDER. Always faithful to the 14- Honey88

I just got done reading your second work. It is very strong, and has an important and valuable lesson. That being said, and you may disagree, but I really don't think it belongs in the workplace. I am in no way saying one should hide their political beliefs or pride in the white race, but many wouldn't have jobs if they weren't discrete at work. Outside of work, I say go all fucking out! People need to be aware of our existence, and then once it becomes more commonplace - more accepted - that is when even at the workplace it is layed out on the table. It may seem hypocritical, but many people couldn't sufficiently provide for themselves and/or their families without a steady income.

I think you have good works, though! I really do! And though you are only a year younger than myself, I am still quite astounded with your maturity and amount of involvement. My ex is a proud Skin who is nearing 30 and still stuck in the drinking and fighting mode, while you have a family and are seriously trying to contribute something more meaningful to the white race. Good fucking job, sir! (Not that drinking and fighting are bad, but sometimes enough is enough!)

I am also quite a grammar Nazi, so if you would like I would be more than happy to do some editing for you.

Regards,  
Matilda

-----  
Subject: New to your site

Hello , Cole .

I saw where you said you only want skinheads on your forum . That makes sense its your site . I live more of the old school skin life than most of the baldies you will ever meet but , I where my hair long . To give you an idea where I'm coming from , I'm in the process of bringing the Hammerskin Nation back how to Texas . If being a skinhead is simply a fashion thing here then , I may not be in the right place but , if as we know it is , its a life of absolute black and white racial reality then perhaps I have some good to offer . I have a Hammerskin Crew38 campout set for East Texas next weekend . I know you aren't anywhere close but if you know of some that might want to meet with some true old school Aryan skins , have them contact me . Keep fighting and Stand Loud and Proud

Hi Cole,

Sorry I have not written you in awhile, I have been dealing with a lot of things, i.e. my mother and some other things and I have been unable to have some quality and private time to try calling you again. But, I know we will be chatting over the phone before we both know it.

In the meantime, hang in there and continue your crusade. Good things happen to good people and you are a good person...or so it seems:) Tell your lady I said hello.

It is so good that there are guys like you out there you are willing to but there lives on the line for what they believe in. Hey Cole,

I tried to call you. But, there was no answer and it said your voicemail inbox has not been set up

yet, so I was unable to leave you a message. I have my hands pretty full today and I'm not sure when I will have some extra free time. But, I did try to call you to touch base with you. Don't worry, we will get your site re hosted, just try to make a back up for it....that is, if you can back it up.

About 6 years ago, I was working with a partner on Aryan Front. I purchased the domain name(s) and he was hooking me up with the hosting. His name was Ralph Viola aka Rob Vitter and in the beginning AF was a huge hit, we had WAU posting and it had constant traffic. The only 2 Administrators were myself and Ralph and then we had the moderators and then the regular members, we even had a private admin section. One day I logged in and I saw this member with 3 posts and it said Administrator under 'her' name.

I asked Ralph why this new member was an Admin and he said he felt like giving her that status. Meanwhile I knew nothing about her, she only had 3 posts and could log in to the admin control panel. So, I changed her status to member....then Ralph changed her back to Admin. I told him that either she goes to a regular member or I was going to pull the plug on the AF forum. Low and behold he did not listen, so I went to my Go Daddy account and pointed the name servers away from the host Ralph was supplying. But, before I did that I backed up the entire database. So, when a person tried to sign into AF, they got a message saying the AF domain name was parked for the time being.

After almost a year of AF being down, a good friend of mine suggested that I put AF back up minus Ralph. I was going through a divorce at the time. So, it felt like my life was falling apart and I did not care about anything. Finally I got over the divorce and I talked to Bart from Blood & Honour and he said to send him the back up of AF and he hosted me free until the first of January. So, he was able to revive AF fully intact and I removed Ralph as a member and AF was reborn with all the members, posts, data, etc;. By the time 1/1 came I sent a money order for \$120 that I raised from the other members.

My point to all of this, try not to get too upset. I know it is frustrating that your host is jerking you around, it sucks that you can't practice free speech on some hosts, most of these hosts are owned by jews. Otherwise, why would it bother them on how we feel about WP. Right? Plus, if they are not offering you a refund, that is also a jew thing.

When I first herd the words, 'Jew,' 'Jewish,' or the words 'he is Jewish," I knew it was something I wanted nothing to do with, it sounded like an illness or a disease. When I looked at jewish kids, they did not look normal....they all had similar features....the nose, the dark hair, the glasses and the large adams apple, then some of them had those bra cups on their heads....when I looked at one, I used to get sick. There was a big movie, it was a 7 hour movie that was actually a mini series on TV called The Holocaust, it was televised around 1978 and it was based on "Jewish" fact, they showed Auschwitz, the so called 'Gas Chambers,' the lovely SS uniforms, etc;. Right away I was very interested in the so called disposal of jews, the very same people that made me sick just to look at. So, at the age of 8 or 9 years old, I already envisioned jews being destroyed to make a better world.

Anyhow, let me stop rambling....lol

Don't worry, we will get you hooked up so you can continue your work.

Dave~

Hi Cole,

Sorry I was not able to get back to you sooner. I have been dealing with my mother as she is not feeling well due to the heat. So, I have had my hands full.

I know your situation regarding your site, I can assure you that I am having money problems of my own, the link below will explain it.

<http://multiple-sclerosis-help.webs.com/>

However, I am willing to steer you in the right direction regarding a free speech host that will more than likely set you up and you can pay him retroactively (maybe). As I mentioned before, he is the owner of the main and original B&H site (link below) and he has been hosting me for \$10 a month. So, I simply get the donations toward the end of the year and pay him. He is a wiz when it comes to web sites and knows how to do whatever you need.

<http://www.bloodandhonour.com/>

My phone number is 917-209-7814. If and when you decide to call and I don't pick up, simply leave a voicemail of when it is best to call you back and I will try to get back to you when I'm able (I may not be around this weekend)+. Sometimes I'm around certain folks that I don't want to share my business with. So, that makes it hard for me to talk at times.

In the meantime, take care brother.

My name is Luke, I'm a skinhead from Colorado. I just got out of the joint in December and am at the halfway till next month. Honestly as far as sites go I have quite a few ideas if you really want to hear them. I just think we need to do more activist shit and also get better educated. There's alot of good factual shit out there to back our play. I wrote a history paper about my beliefs so if u want I will send it to you. Let me know.

Sure. My name is Joyce and I didnt even know this site exsisted until I got a email request about it. I have been on new saxon for a while and it just seems alot of people on their do alot of talking and not alot of action. I have no time or patients for drama and even the elders I have talked to are worse than the fresh cuts. So one thing for your site is dont let the drama happen please drama free site. I know you have added new members and I do hope the site becomes bigger and sucessful.

If you have any other questions your welcome to message me anytime...

05 - Your Message = Great Site & great message.

There is far too little catering for genuine, motivated Skins these days. I have started reading Skinhead Faction, it's very good.

Thanks for your comittment to our Movement. I think Skinheads can become a great power in the White Nationalist movement in general, we can reclaim a place of pride and respect and show other people the way.

As a sign of respect and rememberence to Eugene Terreblanche and the South African AWB, I got an AWB symbol tattoo today.

There is a silent genocide of our people happening in South Africa right now, as you probably

already are aware, with thousands of our people being slaughtered every year. They are on the verge of a full scale RAHOWA.

I try to campaign for the White South Africans wherever I can and was wondering if you might be interested in devoting a small part of this great site to highlighting their struggle. I also have a good downloadable flyer in PDF format if you would like to make it available for download on the site, it is intended for people to distribute online to spread the word, but also for people to print out and distribute in their areas.

South Africa will be in the media spotlight soon with the Soccer World Cup about to start, so it is a good time to be doing some campaigning on this issue.

Anyway, thanks again brother, and apologies for the soapbox!

All the very best to you from a dedicated 'old school' Skin.

read the "Skinhead Faction" and was very pleased with it as a whole. I myself cannot be a skinhead not in true form so I will not request to join this website. I own a store and simply if I wore the full skin uniform and shaved my head I would lose so much business I would be out of business. On the other side of that coin, YES, I do believe in the skinhead rules and faction. I understand the reason and logic behind its requirements and actions. I do what I can from day to day to support my Aryan brothers. Even my company shirts say, "Uber alles in der welt!" Which leads me to my next idea. I will offer anyone from this website, Newsaxon, and any other all WHITE websites a 10% discount off everything I sell online and in my local store. It is a computer store and I have great prices already. I am sorry about not having sex with you!!!!!! I really really really want to but I cant help but think it is only because you are horny and not because you want to please me!!! if you were not horny i do not think you would consider having sex with me just to do it for me!! I dont want to have sex unless it means something!!!! you remember when i asked you weather or not you wanted to have sex or make love first? you told me it was my choice and not many men could "make Love" well i have tried to make love to you and a few times i think you came close to letting go and making true love to me but not really!!! I think it has been so long since you have made love to someone if at all!!! and i think that is why it is so hard for you! for so long you have simply been pleasing your body when it desires it, i want to please your body but more than that i want to please your soul!!!

I wish i had all the answers! but i dont. I feel like we are doing so well and i am scared that if we have sex i will respond badly. your desires will be filled but it will only throw fuel on the flames of my heart and soul and make me desire you more!! and when i desire you like that it bothers you. I dont know exactly how to remedy this! do I simply live with it and serve your desires when you wish, do i deny you! what about my desires? do i forgoe them even the simple things or should i expect you to do some things just to please me? but if you do them i want you to do them because you want to not because i want you to!!! if you do them reluctantly it ruins it! but you feel no desire to do them? how do i change my desires or simply reign them in?

there are so many questions and none of them have to do with the things in the past! i have already forgivin and forgotten!!!! my only thoughts are how to proceed and make you happy? everytime your fingers touch my flesh my heart flares and speeds up! blood rushes to my head!!! my soul aches for you!! I feel like you dont feel like this!!! i feel like even when i got here you loved me but not deep in your soul!!!!!! I love you so so so much and want to embrace you and make you happy and feel your heart and soul mingle with mine!

i love the way you are treating me today i feel like you want to be close to me! but am afraid that when i embrace it it will float away like a misty dream!!! please be paitent with me because i am as lost as you lol!! we both want to make things better btu we dont know how much either way to give or take!!!!

I have faith though!!! we will triumph!!!!

I love you always!!!!

----- Bulletin Posting -----

WPS-BLB wrote:

ok so now that i am not sick anymore and many of you have viewed the video of the event i will explain a little about what happened!

first of all though i would like to express how dissapointed i am in the amount of people who came up with lame ass excuses or simply no excuses for not coming! I am especially dissapointed in the

people from Ohio!!!! I hope you all had fun doing whatever you were doing because while you all were dicking around we arrived at the meeting location only to find that the Antifa was waiting for us!

we were betrayed by someone within the movement!!! A fake!!! Myself one other man and two 16 year old youngsters stood in the lowes parking lot waiting for the arivial of the few who said they would come to the event!!! about 20 Antifa got out of there cars and moved towards us!!!!!!

We are not stupid we came to acomplish somethong not get arrested in the lowes parking lot for fighting with the Antifa in front of Lowes security cameras! we got in our car and left before any altercation came of it and contacted the other people coming! they were coming from Illinois!!! drove six hours to get there!

I called them and told them the meeting place was compramisid and we would set a new location, all the while we were playing cat and mouse driving around with the Antifa!

Our comrades entered the Lowes parking lot to turn around and were attacked, there window was smashed out and car kicked!!! more Antifa had arrived and they ran straight into them!!

There were three of our comrades in the car and we lost the Antifa tailing us and they continued to a new location to meet us!!! Unfortunatly the one "Comrade" who was driving from illinois decided he was going to piss his pants and cowardly left back to illinois taking the other two willing Comrades with him!!!!

I contacted over 500 people about this event and in the end Myself another and two 16 year old kids were the only ones to do anything!!!! We made our presence known and did what we came to do despite the efforts of the Antifa to stop us!!

While on the Freeway a Mexican pulled a gun on us and we still continued!!!

Now in the big picture this event ment nothing!! but the point we were trying to make was that its easy to be active!! grab a flag and stand on the damn freeway!!! to all those people who saw us we bacame real!!! we were no longer the mythical Skinhead that no one ever sees!!!! imagine if people, even if only one or two people did it, in cities all across america stood on bridges waving flags on the same day!!! what kind of statement would that be!!!! an amazing one!!!!!!

But unfortunately my faith in the majority of the people in this movement is minimal, and for good reason!!!!!! i could say let us all pick a bridge in our towns and fly a flag on the same day!!! Would you do it???? Few of you will ever step it up!!! We are losing this battle because the Jew has taken controll of our minds and We are unwilling to sacrafice!!!!

I will sacrafice everything and my only hope for all of you is that you will see that you NEED to do more!!!!!! WE MUST step it up and ACT!!!!!!

"Not a day without action"

Cole A. Mossey

Forget those pricks, I agree I am just as angry with those who say they are with us and wern't, I glad you didnt give up, I have you and many others that I look up to in this movement. Stay strong and know that we will get through this together.

I stay in Columbus now. [thevampireely@aim.com](mailto:thevampireely@aim.com) or hit me up on here. You could go to some good locations seen with me, the spades out here know me, who and what I am and don't bother, I've worked to make sure of that. Let me know. Issues that bother me most here are the illegals and Immi's such as Somalians, Mexicans, and pretty much what ever taking over this city. I have attacked drug dealers who walk head down in another direction than even take a chance of passing me. The reason why I say this is not to brag or look like a hard ass, but to tell you that I do not scare easy, and I do not make a good victim. There will be no running. I suggest something in winter more than likely we will be wearing combat boots and in better condition. I know alot of these areas on the west side very well. I know down town Columbus on foot like the back of my hand. I grew up out here.

- 10) To hang all rapists and child molesters after chopping their bollocks off.
- 11) To re-educate and re-introduce decent White values and promote a healthy White community free from Jewish poison and phoney ideas of "freedom" and "democracy".

Well said, comrade,

I am hoping sometime in mid to late August. Do you have friends interested in Activism? We will be making timed and strategic appearance flying our colours for brief periods within certain areas in order to initiate the development of a sense of actual presence within the community.

I have visited this site and even though I believe unity to be of the utmost importance, I have some shall we say, critical things to say about it!!!

First of all our image as White Nationalists is highly important and when you make a site that represents an organization you should at least do a spell check!!

the words Emperor and Ally are not even spelled right!!

And more than that Nathan Bedford Forest did not Start the Klu Klux Klan as you claim!!

These simple errors are not conducive to dispelling stereo-types about our Movement!!

It is my hope that you may take this criticism as constructive!!!

You may want to fix the mistakes on your site!
